WARNING

This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

#### SUMMARY

Ilinskiy Army Barracks Southeast is a military installation located on the southeast edge of Ilinskiy, approximately 26 kilometers (km) north-northeast of Tomari (Figure 1).

The installation covers approximately 95 acres and contains an administration building, a probable administration building, 5 barracks, 5 general storage buildings, 6 support buildings, a probable vehicle maintenance/storage building, a vehicle park and a flat trajectory/auto-

matic weapons firing range (Figures 2 and 3).

The installation was covered by KEYHOLE missions between [REDACTED]

Snow coverage on the [REDACTED] coverage shows light to moderate activity in the barracks area and no activity on the firing range. Since the barracks area does not seem large enough to support the firing range, the range may be used for training troops stationed elsewhere.

#### DESCRIPTION OF INSTALLATION

##### Road Service

The installation is served by town roads.

##### Administration and Troop Housing Area

Area D contains an administration building, 5 barracks, and 4 support buildings.

##### General Storage Area

Area E contains 5 general storage buildings, 1 support building, and a probable administration building.

##### Equipment Storage/Maintenance Area

Area J contains a 115- by 35-foot probable vehicle maintenance/storage building, 1 support building, and a 260- by 150-foot vehicle park. There appears to be heavy track activity within the vehicle park on [REDACTED] coverage.

##### Flat Trajectory Firing Range

Area P is a 1,300-foot flat trajectory/automatic weapons firing range with a moving target and a possible moving target. It appears to be lightly used.
